

Flooring Extra Practice

For each room

A. Find the area

B. Find the number of cases of flooring needed

C. Find the cost of the flooring

- The floors will be covered in laminate. Each case of laminate costs \$19.95 and covers 25.6 square feet.

1) Living Room: $20' \times 16'$

2) Bedroom: $10'3'' \times 9'$

3) Kitchen: $8'6'' \times 11'4''$
